

Name: _____

Touching Spirit Bear – Initial Peer Editing

During this first peer editing, you will be responsible for having at least two other people look over your paper. In order to get the most out of your peer editing experience, please clarify to your peer editors what areas of writing you would like them to focus on. Note: You will be turning this WS in with your final writing. Please hold onto this!

What areas would you like your peer editors to focus on? Try to pick at least THREE areas (be specific!). ☺
